BUSINESS NAME

WILD LAB PROJECTS

INDUSTRY

TRAVEL & TOURISM

CLIENT'S REQUIREMENT:

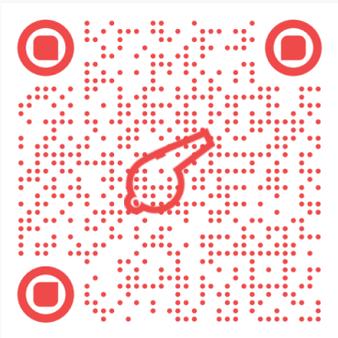

Wild Lab Projects is an initiative of our client, Wandering Owl. It is a nature conservation project with the citizen scientist travel concept. The client approached us for developing a travel booking website.

PROCESS FOLLOWED

- ▶ We follow a common process for all our clients.
- ▶ As this client had unique requirements, we brainstormed within the team and tailor-made the process that best suited the client's goals.

WHAT DID WE DO FOR THE CLIENT?

- ▶ The client had an idea to offer naturistic tour services to travel aspirants.
- ▶ We built a design prototype for the website using a custom theme bringing in their branding colors.
- ▶ To integrate the website with the booking engine, we have used Rezdy API. Along with it, we also used Rezdy's Calendar Widget.
- ▶ To integrate the booking feature, we customized Rezdy's booking widget.
- ▶ And finally, we migrated the website from staging to live using the WPEngine's migration system.

Star Walk on the Wild Side Tromsø

Scandic Ishavhotel, Fredrik Langes gate, Tromsø, Norway

5 Hours

All Inclusive Activity

Adult Price From
NOK 1300
Per Person

BOOK THIS ACTIVITY

Information Additional Info Extras Terms & Conditions

Come with us for your Aurora hunt for an amazing experience underneath the Aurora Borealis. Tromsø is the best place to see the Northern Lights. Leave the light pollution in Tromsø behind and travel into the Arctic wilderness. During this activity, our small team of Aurora guides check the forecasts and use local knowledge to decide on the best place to chase the Northern Lights. When we find the best spot we will dress in warm thermal suits and hoods, make a cosy campfire, and enjoy a homemade meal. During your Aurora Hunt
